"Yes, I will stay. "Do you feel unwell?" asked Ambroise. No, but I am frightened," replied the physician. At this strange answer, Ambroise looked his friend in the course of a year patients called him from home at all hours of the day and night, and he had never shown

the least sign of weakness or fear; though certainly, since the death of his wife, several of his patients had ned that when they had required him during the article of night, although the cases were urgent, he had always found means under different pretexts not to go when he was wanted. Ambroise recollected these complaints, and remembering, besides, that there was a wood to cross at a quarter of a league's distance from Marsilly, he offered either to have him accompanied, or to lend him his pistols in case he feared being stopped. But the doctor shook his head, and repeated twice over : "It is not that! It is not that!" Ambroise, who required nothing better than he should

remain, in case his wife might require fresh attention, did not press the point any more, and gave his servant orders to prepare a bed for his guest. The doctor then asked him whether he should have any objection to the bed being made up in his own bed room. Ambroise having no reason to oppose this, consented. He then just went to his wife, found that she was asleep, desired that he might be awoke in case that anything occurred, and, leaving her in charge of the nurse who was attending her, came back to the room where he had left the

He found him walking about in an agitated manner, and taking enormous steps, but at the moment he did not pay any attention to this. Taking up one of the lights which had been burning all the evening, he invited the doctor to take the other, and went with him into the bedroom, where, in accordance with the request of the doctor, both were to pass the night. Rosin-We have no change of importance to report in the market for either grade during the past week, so far as re-PROF. Wood-About two years ago my hair commenced gards prices. The receipts continue light, and there is only ened my nair firmly. It began to fill up, grow out, and turned back to its former color, (black.) At this time it is fully restored to its original color, health and appearance, and I cheerfully recommend its use to all.

J. D. HOES

On the season of the week comprise about 1,200 by the season of the season o fined to small lots at \$1 50 to \$2 75 for the former, and \$1 40 lasses—New Orleans, 55 a 00; West Indies, 33 a 40c. But-The Restorative is put up in bottles of 3 sizes, viz: medium to \$1 50 for the latter, as in quality. The Common article & sack, \$1 40 a \$1 50. N. C. Whiskey, 40 a 45c.; Northern appears to have been somewhat neglected, and the only do. 00 a 00c. sales made were on Wednesday of 420 bbls. at \$1 30, and per bottle; the large holds a quart, 40 per cent. more in 3,600 do. at \$1 35 # 310 lbs.; holders generally are firm in asking highest price, and refuse to take a less figure .-The quantity coming in is quite small, and the stock held here is unusually light, which has a tendency to strengthen the market.

TAR-Since our last review the quantity received has been light, and, with a moderate demand from buyers, the market has ruled firm. The sales for the week foot up only 809 bbls. at \$1 75 \$ bbl.

BEEF CATTLE, &c .- We have nothing new to report in tais article. The stock of beeves continues light, and we ize the increasing stocks. The orders from abroad compelnote a brisk demand from butchers; none of consequence a prime article would sell readily at fair prices.

BARRELS-For empty Spirits Turpentine barrels the market continues to rule exceedingly dull ;-scarcely any demand exists, and we note a fair supply in first hands. Only small transactions have taken place at prices ranging within quotations. See table. COTTON-The unfavorable advices received since our last

review has imparted considerable duliness to the market. and it has ruled exceedingly dull during the week just ended. On Friday last one small lot changed hands at 11; cents for strict middling; no sales since reported, and buyers generally have withdrawn from market. We are unable to give a correct quotation, and figures in table must be looked upon

as merely nominal.

the small way from the granaries at 924 a 95 cents # bushel. FISH.—The market is moderately supplied with most descriptions, and there is merely a retail demand. See table

for store prices. FEATHERS .- Scarcely any arriving, and we note a fair en-

quiry. Sell readily at 50 a 55 cents # 15. for good quality. FLOUR .- Since our last review the advices from abroad have been more favorable, and prices have an upward tendency. There is, however, but little demand from retailers, and prices here are too high for shippers to operate; in consequence no transactions worthy of report have taken place. Holders generally are asking \$7 for superfine, and buyers not disposed to purchase unless at lower figures. In the present state of the market we can scarcely give a correct quotation, and therefore quote nominally at \$6 75 a \$7 for superfine, and \$7 a \$7 25 \$7 bbt, for family. Receipts for the week have been small, but the supply on market is fully

sufficient for present wants. GRAIN .- For Corn the market continues to rule decidedly firm, though we have no change to report on last week' prices. The arrivals for some time past have been light, and in consequence the stock in dealers' hands has become materially reduced. There is an active enquiry existing, and parcels sell readily on arrival. The receipts for the week reach only 7,450 bushels from Hyde county, 3,200 of which changed hands at 85 cents & bushel, and the balance has gone into store. OATS .- Scarcely any on market, and we note a fair demand; a few parcels would readily command high figures. One lot of 300 bushels was received by a dealer a few days since, and stored. Peas.-For Cow the market continues to rule firm, and high rates are casily obtained. We hear of the sale of only one lot of 77 bushels on Tuesday at \$1 % bushel. A lot of 500 bushels was also received a day or two since, which has gone into store. - RICE. - Clean is in rather light stock, and the market rules firm, with a fair demand, at 34 a 4 cents # 1b., as in quality.

HAY .- In the absence of receipts the supply on market has become somewhat reduced, and at present we note a better demand from dealers. No sales of Northern have been reported for several weeks; last sales of Eastern were at 85 a 90 cents.

LIME .- For this article there is merely a retail demand, and the market is moderately supplied. Retailing from store at \$1 10 per cask for common lump.

Molasses-Has been in moderate enquiry throughout the week, and for Cuba the market rules firm at previous rates. One cargo of 250 hhds. was received from Cardenas a few days since, and charged hands on terms not made public .-We continue to quote sales from wharf at 23 a 24 cents in lots of five hhds, and upwards, and 24 a 25 cents per gallon & Savage; with naval stores, for single hhds., as in quality.

POTATOES .- Nothing new to report. Irish are in fair stock, and dull of sale at \$1 50 to \$1 75 per bbl. Sweet are scarce and in demand; sell readily at 85 to 90 cents per bushel. PEA NUTS .- None worthy of report received, and no sales have been effected. We quote at \$1 20 to \$1 30 per bushel,

Provisions-In N. C. cured Bacon we have no change to report. The receipts for the week have been light, but there is a fair stock remaining in dealers' hands, and in the absence of any demand from retailers the market has ruled Dudley. 111 very dull. We hear of the sale of only one or two small parcels at 112 cents 2 fb. for hog round. There is also a T. C. Worth; with mdze. fair supply of Western in store, and demand light; only | Schr. On the 1st inst., in a gale off New Inlet lost demand has been limited for a few weeks past, and we note a fair supply of Northern on market. See table for store C. & B. G. Worth.

SALT-There appears to be merely a retail demand for either description, and the stock is fully sufficient for pres- Harriss & Howell; with mdze. ent wants. No receipts or sales, and we refer to our table for store quotations, as in quantity. SHINGLES-Little or no demand for shipping, and the mar-

ket rules quiet. We quote only small sales of Common at TIMBER-Is in fair demand for mill purposes, and a prime & Clark. article sells readily at fair prices; -scarcely any has been

when brought ₩ Railroad, about the same expenses are in-curred.—\* For virgin or mixed Turpentine a deduction or six rafts at \$5 a \$7 ₩ M. brought in during the week, and we note sales of only five FREIGHTS -- Coastwise remain about the same as last reported. Country produce has arrived slowly, and there is but a small quantity offering shipment-hardly enough for the vessels now in port. Our quotations in table are for | zaux; with mdze.

> MOBILE, May 2.—Cotton.—Sales of 1000 bales; Middling 12 a12 cents. TUESDAY, May 3 .- Sales of 1500 bales, with no change in the market. The sales of the past three days sum up 42,-000 bales, and the receipts in same time have been 2750 bales.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Berhave. Because of its great success in Cotton-Dull and declining; quite a change in the market most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged. It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally,
